AV ATS The Advance Automatic Transfer Switch

CM 335

CM 331

Automatic Transfer Switch AV ATS Motor Operated Changeover Switch

AV ATS range of True 4 pole Auto Changeover Switches with Positive Break Indication. They enable the On Load transfer of Two, Three-Phase supplies via Remote Volt-Free Contacts, from either external Automatic Controllers, using Pulse Logic or Push Button Station.

They are intended for use in LV Power Systems where interruption of the load supply is acceptable during transfer though have the solution for Uninterrupted Power Supply Systems also.
