ELECRAMA 2016

This year HPL will exhibit its top-of-the-line products amidst other competing International players at the ELECRAMA 2016 held in Bangalore International Exhibition Centre (BIEC) from February 13 – 17, 2016. So, come and meet us at the event to check out our latest electrifying range of products.

Social media has become indispensable in everyone's life and HPL has been creating buzz in the online world with engaging content on Facebook and Twitter. Through uninterrupted and interesting posts, HPL is dominating with its online presence and snatching numerous likes and shares.

NEWS @ HPL

January 2016

From The Chairman's Desk

A new year for us at HPL is a marker of all things fresh and inspiring. The inspiring part this year comes from aligning ourselves with the PM's Smart Cities vision to make our urban spaces intelligent and energy-efficient. Our range of innovative, advanced products from LEDs to smart meters to solar panels and more are all set to make this initiative a grand success.

2016 is also when we complete 60 glorious years as an organisation of excellence in the electrical industry. A journey fuelled by unrelenting conviction which has seen us become one of the leading lights of the industry; what with 29 branch offices, 6 state-of-the-art manufacturing units and a 5500+ workforce; ably supported by 2200 authorised dealers and 27,000 retailers across India.

Along the way, we can say hand on heart, that we have given our very best, day after day. The key to greatness lies in improving ourselves through perseverance, talent and meaningful innovation with a focus on the finest technology available. And it is through the diligent pursuit of these qualities that HPL today stands tall as the 'The Technology Brand of India'.

Our manufacturing facilities are ISO:9001 certified for Quality Management System, ISO:14001 certified for Environmental System and OGSAS - 18001 certified for implementing an occupational Health and Safety Management System. Our products are ISI Certified by BIS, a mark of quality products in India. We also boast of a range of products with KEMA certification for energy utilization and a CE certificate for acceptability in Europe and other international markets.

But this is all just a first step towards a glorious future. For deep down we know that the best years—for us and our beloved country—are still ahead of us.

Here's wishing you a truly electrifying 2016!

“ HPL endeavor to cultivate a vibrant corporate culture in the organisation. To make sure that individual employees should enhance their capabilities and apply them to add value to their business. This is the key which ensures that HPL grows and flourishes as a truly successful enterprise. ”

Innovations that touch the world

Mr. Gautam Seth
(JMD - HPL)
shares his views about the growth and vision of the company. A product presentation was made by the respective product heads. Live product demonstrations were also showcased.

Technical Seminars & Product Demonstrations

Innovation has been the backbone of what we have achieved through the years, with a best-in-class R&D centre and an army of our engineers who have devoted themselves to produce the most innovative and advanced products for you. To catalyze their ideas, we annually organise Technical Seminars & Product Demonstrations.

Our last meet, conducted just few months back, on the 26th of Nov, 2015 at the Le Meridien in New Delhi was graced by the presence of some of the top-notch consultants, architects and builders across the industry. The idea behind this meet was to communicate the company's vision as well as excite the world at large about our latest attractions.

bsäfe MCB The 2016 showstopper

bsäfe
MCB | DB | RCCB

Let's be clear, we are not talking about any MCB here. BSafe is what most industry insiders have hailed as a monumental feat of engineering that goes way beyond the standard of regular MCBs. In the category of Miniature Circuit Breakers, this one with its exquisite design and performance is as perfect as it can get.

**Ab roshan
ho khushiyaan**

In 2015, HPL took a brave new step in the world of Bollywood blockbusters by associating itself with Salman Khan's much-adored offering –Prem Ratan Dhan Payo. With the movie enjoying worldwide success and recognition, this partnership was mutually rewarding and one that brought a huge smile on the face of every individual associated with HPL, our employees, partners, distributors, retailers and stakeholders.
